

PRIMITIVE PILS

STYLE:
GERMAN PILSNER

DESCRIPTION:

The summer months often bring back memories of childhood adventures. Sitting around a campfire after a day filled with hiking, biking, swimming and boating. Crisp night air lulling you to sleep while the flickering fire light soothes your primal mind.

Clear, clean, crisp and quaffable; our Primitive Pils is pristine and yet primal to its core.

Starting with a base of traditional German Pilsner malt, which just a splash of German Light Munich for color and delicately hopped with both traditional and modern German hops, our Primitive Pils is lagered for weeks in the German tradition after being fermented by a classic German lager yeast strain, creating the perfect beer for anyone feeling primitive.
